

VINI *M*ACCAGNO

## “Sislönga” Red Wine

### **General description:**

Nebbiolo has always been one of the most fascinating grape varieties, able to stir new emotions in those who grow it and respectfully make wine out of it.

Less intense and balsamic, spicy and sometimes floral; ripening in wood develops hints of cinnamon, cocoa and liquorice. It has a full, warm and balanced flavour. Ageing adds complexity and makes it rich in sweet and velvety tannins, with a long length.

VINI **M**ACCAGNO

## “Sislönga” Red Wine

**Name:** "Sislonga" red wine.

**Grape variety:** Nebbiolo.

**Soil type:** sandy and calcareous.

**Exposure:** south - south-east.
